Present

Calm the Chaos!

Mastering Fireground Command

2-Day Simulator & Hands-On Workshop

Today's fireground should be a calm and orchestrated event, but often it is not!

The NIOSH top 5 line of duty death operational causes on the fireground surround size up, command, communications, accountability and SOP's.

Participate in simulations and hands-on drills for house fires, garden/center hall apartments, commercial fire incidents and review actual inside-the-command-post incident video and audio to get answers to the following questions...

- How do I set clear tactical objectives, have clear communications and establish command presence on my fires?
- How do I create a personal system that blends all of my classes, certifications, SOP's, ICS, and tactical fundamentals into a simple, street-smart and effective way?
- What's the difference between size ups and arrival reports and how do I become better at both?
- What are the trigger points and safety issues of Offensive, Defensive and Combination strategies?
- What are the key points to Rescue, Exposures, Confinement, Extinguishment, Overhaul, Ventilation and Salvage?
- What is the real difference between RECEO-VS and SLICE-RS?
- How do I really use ICS day-to-day and get beyond "checking the boxes"?
- How do we get SOP's/SOG's working in my department?
- When do we call an audible on the SOP's?
- What could hurt me or my crew tonight?
- What do changes in construction and fire behavior mean to modern-day tactics and command?
- What are the implications of the latest NIST and UL studies regarding flow path?

Who should attend...

- ✓ **Company Officers who want more tools upon arrival**
- ✓ **Chief Officers who want better communications and accountability**
- ✓ **Aspiring Officers who want to prepare for the job and the test**
- ✓ **Training Officers who want the latest in tactical and command training**

May 21-22, 2018

9am - 5pm- must attend both days

Cost of the class is \$250.00. To Register E-mail Landre@smfd.org. Please make checks payable to Southern Marin Fire Protection District. Mail checks to 308 Reed Blvd, Mill Valley, CA 94941 ATTN: Liza Andre. Please RSVP by April 15th

Training will be held at the Baptist Seminary site: 201 Seminary Dr, Mill Valley

Anthony Kastros is a 31-year veteran of the fire service. He is a Battalion Chief with the Sacramento (CA) Metro Fire District. He is author of the Fire Engineering DVD series "Mastering Fireground Command - Calm the Chaos!" and author of the Fire Engineering book and video series, "Mastering the Fire Service Assessment Center". Chief Kastros was the FDIC International 2013 Keynote Speaker and teaches leadership, command and promotional training throughout the United States. He spent 4 seasons on a Type 1 incident management team, and 10 years as a FEMA USAR Task Force Manager, deploying to New York on 9/11.
