## Paved Road Fuel Reduction Program

Dear Southern Marin Resident,

The Southern Marin Fire Protection District has made the reduction of flammable vegetation that surrounds us one of its biggest priorities. To that end, the District's multi-faceted Vegetation Management Program is coming to your neighborhood with two primary goals in mind: reduce flammable vegetation and improve access for emergency vehicles, particularly on narrow, winding streets.

The focus of the Vegetation Management Program in your neighborhood includes:

- Pruning trees to maintain emergency vehicle access - 15 feet vertically from the roads edge
- Removal of all flammable and encroaching vegetation from roadsides and sidewalks
- Evaluation of designated parking spots
- Clearing of vegetation around fire hydrants
- Any trees identified as dead or dying will be designated for removal with an orange flag

Please do not pile any vegetation on the roadside for pick up. This project is for street clearing only.

If you have any questions regarding this program, concerns about specifically marked trees, or interest in scheduling a chipper day, please contact the Vegetation Management Specialist Jason Nancarrow at 415-388-8182 or [jnancarrow@smfd.org](mailto:jnancarrow@smfd.org).

Sincerely,

Jason Nancarrow  
Vegetation Management Specialist  
Southern Marin Fire Protection District
